### Greeting

Your Honor,

### Body

I am writing regarding the sentencing of Chemnutra/Millers. Preliminary reports indicate that a plea bargain has been offered for two individual fines of \$5,000 each for Mr. & Mrs. Miller, with three years probation.

I protest this token slap on the wrist for people who are responsible for thousands of pet deaths, and the injuries of tens of thousands more.

I don't know if you ever had a dog or cat who offered the unconditional love and companionship that so many Americans enjoy from their pets. Even if you have not, you can surely imagine the heartbreak, both emotional and financial, that was visited upon innocent citizens and their helpless pets.

This sounds suspiciously like it will be handled as just another business cost.

It is much more than that. I hope your considered judgment in this case will reflect that.

Thank you for your time,

### Closing

Sincerely,

Pamela Merritt
